

Key Leadership Skills for Success in the Technological World Senior Panel Discussion

May 17, 2017, 6:00 – 8:00 PM

Aiming for success in tech? Learn from those who have done it! Listen to the inspiring journeys of successful senior women and men in technology as they talk about their pathways to success. Highlights will include details on their paths, obstacles they overcame, things that helped them along the way, and tips and strategies that can also work for you. This is a great opportunity for you to network with the movers and shakers in the science and technology community and support the career advancement of women in STEM!

Panelists include:

- Olu Ibrahim, Founder & CEO of Kids in Tech, Inc.
- Sue Lee, Senior Vice President, General Counsel at Entegris, Inc.
- Andrew Olney, Director of Technology Development, Analog Devices, Inc.
- Jody Saarmaa, Vice President of Product Management at Building Engines
- Elaine Webb, Materials Manager ECO and ECC at Applied Materials
- Moderator: Debbie Gustafson, CEO at Energetiq Technology, Inc.

Refreshments: Appetizers, beverages, and dessert will be served

Location: Analog Devices, 804 Woburn Street, Wilmington, MA
